The investment manager is Fat Prophets Funds Management Pty Limited (referred to throughout this PDS as the "Investment Manager" or "Fat Prophets").

At the time of lodgement of this PDS with ASIC, the Responsible Entity has made an application to the Australian Securities Exchange ("ASX") for the quotation of units in the Fund on the Securities Exchange with the exchange ticker: FATP. If the application is approved by the ASX and the units in the Fund are quoted on the Securities Exchange, the units will be able to be traded on the Securities Exchange. No representation is made concerning the Fund's quotation on the Securities Exchange.

The Responsible Entity has authorised the use of this PDS as disclosure to investors and prospective investors who invest directly in the Fund, as well as investors and prospective investors of an investor directed portfolio service, master trust, wrap account or an investor directed portfolio service-like scheme ("IDPS"). Indirect Investors should carefully read the IDPS Guide before investing in the Fund. Indirect Investors should note that they are directing the IDPS Operator to arrange for their money to be invested in the Fund on their behalf. Indirect Investors do not become unit holders in the Fund or have the rights of unit holders. The IDPS Operator becomes the unit holder in the Fund and acquires these rights. The IDPS Operator can exercise or decline to exercise the rights on an Indirect Investor's behalf according to the arrangement governing the IDPS. Indirect Investors should refer to their IDPS Guide for information relating to their rights and responsibilities as an Indirect Investor, including information on any fees and charges applicable to their investment. Information regarding how Indirect Investors can apply for units in the Fund (including an application form where applicable) will also be contained in the IDPS Guide. Equity Trustees accepts no responsibility for IDPS Operators or any failure by an IDPS Operator to provide Indirect Investors with a current version of this PDS or to withdraw the PDS from circulation if required by Equity Trustees. Please ask your adviser if you have any questions about investing in the Fund (either directly or indirectly through an IDPS). In New Zealand, the IDPS operator needs to be licensed as a Discretionary Investment Management Service provider.

Units and NAV per unit

The Issuer has applied to the ASX for quotation of the Fund as an ASX AQUA exchange traded fund. Once the Fund has been admitted to quotation on the ASX, the units of the Fund will be traded on the Securities Exchange like any listed security.

The Net Asset Value (NAV) estimates the value of the Fund at the close of trading on the previous day in each market in which the Fund invests. The latest available NAV per unit will be published daily on the Responsible Entity's website at www.eqt.com.au/insto prior to the commencement of each trading on the ASX. The NAV per unit may fluctuate each day as the market value of the Fund's assets rises or falls. The Responsible Entity's NAV Permitted Discretions Policy provides further information about how the NAV is calculated.

The Responsible Entity has engaged an agent to calculate and disseminate an indicative NAV per unit (iNAV) which will be published on the Responsible Entity's website throughout the ASX Trading Day. The iNAV reflects the real time movements in sharemarkets and currencies during the ASX Trading Day and, for securities not trading during the ASX Trading Day, listed proxy instruments selected on the basis of correlations with the underlying investments. The proxies and their correlations with underlying instruments are reviewed regularly and updated as required. The Issuer or its appointed agents gives no guarantees that the iNAV will be published continuously or that it will be up to date or free from error. To the extent permitted by law, neither the Responsible Entity or its appointed agent shall be liable to any person who relies on the iNAV. The price at which units trade on the ASX may not reflect with the NAV per unit or the iNAV.

However, the Constitution of the Fund allows the Responsible Entity to make payment up to 30 days after receipt of a Redemption Request Form, and this period can be extended at the discretion of Equity Trustees in accordance with the Constitution.

The Responsible Entity reserves the right to postpone the processing and payment of withdrawals for the Fund subject to the above extensions of time.

Where the Fund is not liquid (as defined in the Corporations Act) an investor does not have a right to withdraw from the Fund and can only withdraw where the Responsible Entity makes a withdrawal offer to investors in accordance with the Corporations Act. The Responsible Entity is not obliged to make such offers. The Fund will cease to be liquid if less than 80% of its assets are liquid assets. Broadly, liquid assets are money in an account or on deposit with a financial institution, bank accepted bills, marketable securities, other prescribed property and other assets that the Responsible Entity reasonably expects can be realised for their market value within the period specified in the Constitution for satisfying withdrawal requests while the Fund is liquid.

Compulsory withdrawal

The Responsible Entity may redeem some or all of an investor's units without asking them in accordance with the Constitution or as permitted by law. As an example, this may occur where an investor breaches their obligations to the Responsible Entity (for example, where the Responsible Entity believes that the units are held in breach of prohibitions contained within the Constitution) or where the Responsible Entity believes that the units are held in circumstances which might result in a violation of an applicable law or regulation.

Transfer and conversion of units

Investors will be able to convert or transfer of their units, if:

- Your units are held directly with the Fund on the Issuer-Sponsored sub-register (SRN) and you wish to convert or transfer your units to the Clearing House Electronic Sub-register System (CHES) sub-register (HIN). To do this, you will need to provide your broker with your SRN. You are able to convert or transfer whole or partial units. Units are held to 4 decimal points in the SRN and will be round down to whole units upon conversion. Any residual units will be cancelled and become the assets of the Fund.
- Your units are held in an account with your broker on the CHES sub-register (HIN) and you wish to transfer your units to another HIN or to transfer or to convert your units to an account directly with the Fund on the Issuer-Sponsored sub-register (SRN). The Registry will process transfer of units for investors on receipt of a completed original standard transfer form.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period. The Fund usually distributes income annually. Distributions are calculated effective the last day of the distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested. Additional units issued to investors who hold their units with a stockbroker (HIN holding on the Securities Exchange sub-register) will be rounded to the nearest whole number and investors who hold their units directly with the Fund (SRN holding on the Issuer-Sponsored sub-register) will be issued partial units.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution directly credited if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested. If New Zealand investors elect to have their distribution paid in cash, they will need to nominate a bank account held in their own name with an Australian domiciled bank. Cash distributions will only be paid in Australian dollars to such an account. When the distribution is reinvested, New Zealand investors will be allotted units in accordance with the terms and conditions set out above.

The distribution reinvestment plan described above is offered to New Zealand investors on the following basis:

- At the time the price of the units allotted pursuant to the distribution reinvestment plan is set, Equity Trustees will not have any information that is not publicly available that would, or would be likely to, have a material adverse effect on the realisable price of the units if the information were publicly available.
- The right to acquire, or require Equity Trustees to issue, units will be offered to all investors of the same class, other than those resident outside New Zealand who are excluded so as to avoid breaching overseas laws.
- Units will be issued on the terms disclosed to you, and will be subject to the same rights as units issued to all investors as you.

There is available from Equity Trustees, on request and free of charge, a copy of the most recent annual report (if any) of the Fund, the most recent financial statements (if any) of the Fund, the auditor's report on those financial statements or, if those financial statements are not audited or reviewed by an auditor, a statement to that effect, the PDS and the Constitution for the Fund (including any amendments). Other than the Constitution, these documents may be obtained electronically from www.eqt.com.au/insto.

4. Applications and Withdrawals on the ASX

Applications via the ASX

Once the units are quoted on the ASX, Investors can invest in the Fund by buying units through a broker who will settle the buy order on the CHESSE settlement service. Application Forms are not required to be completed and there is no minimum investment amount. The price applied to the investors buy order will be the market price at the time of purchase as reflected by the price at which they have bought units on the ASX.

Withdrawing via the ASX

Once the units are quoted on the ASX, Investors can withdraw from the Fund by selling units through a broker who will settle the sell order on the CHESSE settlement service. Withdrawal Forms are not required to be completed and there is no minimum withdrawal amount. The exit price applied to the investors sell order will be the market price as reflected by the price at which they have sold units on the ASX. You are only able to withdraw whole units and any residual units will be cancelled and become the assets of the Fund.

ASX liquidity

Once the units are quoted on the ASX, units are transacted (bought and sold) on the secondary market, in the same manner as securities listed on a Securities Exchange.

The Issuer may provide liquidity to investors on the ASX by acting as a buyer and seller of units. At close of each ASX Trading Day, the Issuer will create or cancel units by applying or withdrawing its net position in units transacted via the ASX. The Issuer has appointed a Market Making Agent to transact and facilitate settlement of trades on its behalf.

The price that the Issuer may transact on will reflect the NAV per unit (as referenced by the iNAV), market conditions and the supply and demand for units during the ASX Trading Day. The Fund bears all the risk of market making activities performed by the Issuer on its behalf. This may result in a gain or loss to the Fund. Please refer to the Market Making Risks in section 7.

5. Applications and Withdrawals with the Administrator

Initial applications

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount to invest in the Fund directly is \$5,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Mainstream Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968
Sydney, NSW, 2001

Please note that cash and cheques cannot be accepted.

Application cut-off times

If we receive a correctly completed Application Form, identification documents (if applicable) and cleared application money:

- before or at 2pm (Sydney time) on a Business Day and your application for units is accepted, you will generally receive the Application Price calculated for that Business Day; or
- after 2pm (Sydney time) on a Business Day and your application for units is accepted, you will generally receive the Application Price calculated for the next Business Day.

Additional applications

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. There is no minimum additional investment amount.

Application terms

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day, is in general terms, equal to the NAV, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). As at the date of this PDS, the Buy Spread is 0.25%.

Equity Trustees reserves the right to refuse any application without giving a reason. If for any reason Equity Trustees refuses or is unable to process your application to invest in the Fund, Equity Trustees will return your application money to you, subject to regulatory considerations, less any taxes or bank fees in connection with the application. You will not be entitled to any interest on your application money in this circumstance.

Under the Anti-Money Laundering and Counter-Terrorism Financing Act 2006 applications made without providing all the information and supporting identification documentation requested on the Application Form cannot be processed until all the necessary information has been provided. As a result, delays in processing your application may occur.

Making a withdrawal directly with the Administrator

If an investor's units are held on the Fund's Issuer-Sponsored sub-register then investor's in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Mainstream Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968
Sydney, NSW, 2001

Or sending it by fax to +612 9251 3525

No minimums apply to withdrawal requests and there is no minimum account balance. Only whole units are allowed to be transacted. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your bank account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

You will be required to provide your Securityholder Reference Number ("SRN") or your investor number on the Withdrawal Form.

If your units are held with your stockbroker (and so carry a Holder Identification Number ("HIN")), then your units are maintained on the CHESS sponsored sub-register. If your units are held this way and you wish to withdraw directly from the Fund, you will first need to submit a request to your stockbroker to have your units converted to an Issuer-Sponsored Holding so that an SRN can be allocated to you by the Unit Registry. Your stockbroker is responsible for managing the process of converting your broker-sponsored holding to an Issuer-Sponsored Holding and is subject to their standard processing times. Please contact your stockbroker for further information.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.25%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Withdrawal cut-off times

If we receive a withdrawal request:

- before or at 2pm (Sydney time) on a Business Day and your withdrawal request is accepted, you will generally receive the Withdrawal Price calculated for that Business Day; or
- after 2pm (Sydney time) on a Business Day and your withdrawal request is accepted, you will generally receive the Withdrawal Price calculated for the next Business Day.

Withdrawal terms

Equity Trustees will generally allow an investor to access their investment within 14 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 180 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution.

Investors will be notified of material changes to their withdrawal rights via email or by another form of written correspondence. These changes will also be published on the Fat Prophets website.

Withdrawal requests received from New Zealand investors must specify:

- The withdrawal amount in Australian dollars; or
- The number of units to be withdrawn

We are unable to accept withdrawal amounts quoted in New Zealand dollars. If you are a New Zealand investor, please note that the withdrawal amount paid to you will be in Australian dollars and may differ from the amount you receive in New Zealand dollars due to:

- Foreign exchange spreads between Australian and New Zealand dollars (the currency exchange rates differs daily); and
- Overseas telegraphic transfer costs.

Withdrawals will only be paid directly to the unit holder's bank account held in the name of the unit holder with an Australian-domiciled bank. Withdrawal payments will not be made to third parties.

In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

Once we receive your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your bank account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

We may contact you to check your details before processing your withdrawal request, but are not obliged to. This may cause a delay in finalising payment of your withdrawal money. No interest is payable for any delay in finalising payment of your withdrawal money.

We are not responsible or liable if you do not receive, or are late in receiving, any withdrawal money that is paid according to your instructions.

When you are withdrawing, you should take note of the following:

Withdrawals will only be paid to the investor.

- If we cannot satisfactorily identify you as the withdrawing investor, we may reject your withdrawal request or payment of your withdrawal proceeds will be delayed. We are not responsible for any loss you consequently suffer.

- As an investor who is withdrawing, you agree that any payment made according to instructions received by post, courier, email or fax, shall be a complete satisfaction of our obligations, despite any fact or circumstances such as the payment being made without your knowledge or authority.
- You agree that if the payment is made according to these terms, you, and any person claiming on your behalf, shall have no claim against us with regards to such payment.

Authorised signatories

You can appoint a person, partnership or company as your authorised signatory. To do so, please nominate them on the Application Form and have them sign the relevant sections. If a company is appointed, the powers extend to any director and officer of the company. If a partnership is appointed, the powers extend to all partners. Such appointments will only be cancelled or changed once we receive written instructions from you to do so.

Once appointed, your authorised signatory has full access to operate your investment account for and on your behalf. This includes the following:

- making additional investments;
- requesting income distribution instructions be changed;
- withdrawing all or part of your investment;
- changing bank account details; and
- enquiring and obtaining copies of the status of your investment.

If you do appoint an authorised signatory:

- you are bound by their acts;
- you release, discharge and indemnify us from and against any losses, liabilities, actions, proceedings, claims and demands arising from instructions received from your authorised signatory; and
- you agree that our acting on any instructions received from your authorised signatory shall amount to complete satisfaction of our obligations, even if these instructions were made without your knowledge or authority.

6. Benefits of investing in Fat Prophets

Traditional business models are being disrupted as connectivity, networks and the sharing economy impact all industries – retail, transport, communications, energy and banking to name a few. Fat Prophets invests to generate returns from these major secular shifts.

The Fund will include large capitalisation names and is constructed on the basis of strict criteria, giving the Fund exposure to some of the fastest-growing companies in the world, at carefully determined entry points. The Portfolio's geographical and sectoral diversification lowers the concentration risk inherent in a typical Australian portfolio with its heavy skew toward banks, resources and the Australian dollar.

The Fund's philosophy reflects Fat Prophets' objective build wealth through investment through stocks, sectors, and markets that are out of favour and cheap on valuation metrics. The Fund also seeks to capitalise on opportunities with disruptive companies that are changing the way business is done globally.

The Fund operates a global thematic strategy, to not only take advantage of disruption and the impact it has on businesses, but contrarian opportunities within industries that may have been in a lengthy downturn and approaching a key inflection point. The Fund does not invest with a view to tracking benchmark returns, which Fat Prophets believes are inherently backward-looking. Fat Prophets expects this thematic approach will outperform relevant global indices.

Fat Prophets observes that we are witnessing significant value destruction in traditional firms in favour of strategies that recognise the rapid changes that are now facing companies.

7. Managing risk

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Conflicts of interest risk

The Responsible Entity, the Investment Manager and third party service providers may, in the course of their business, have potential conflicts of interest which may not be managed effectively and may be detrimental to the Fund and its Investors. The Responsible Entity has an established Conflicts Management Policy to manage our obligations to the Fund and to ensure that any perceived or actual conflict is managed appropriately.

Individual investment risk

Investments to which the Fund is exposed, shares on a share market, can (and do) fall in value for many reasons, such as changes in a company's internal operations or management, or in its business environment. The Investment Manager aims to reduce these risks with careful analysis from a large range of sources to identify changes in companies which may impact on the Fund's investments.

Market risk

Economic, technological, political or legal conditions, interest rates and even market sentiment, can (and do) change, and changes in the value of investment markets can affect the value of the investments in the Fund.

Investment manager risk

Investment managers can be wound up or liquidated, they can cease to manage the relevant fund and be replaced, their investment methodology can change, they can poorly manage operational risks and their funds can perform poorly. If any of these occurred, Equity Trustees would do all things reasonably practicable to recover the value of the Fund's investments and seek a new investment manager or program, with a similar investment profile, if thought appropriate. If the investment program changed significantly, you would be given at least 30 days' notice before those changes come into effect. Further, only a small number of investment professionals are responsible for managing the Fund and their personal circumstances can change. We aim to reduce this risk by having additional resources available through Equity Trustees.

Equity Trustees may terminate Fat Prophet's appointment according on a number of bases set out in the Investment Management Agreement, including Fat Prophets becoming insolvent, ceasing to carry on an investment management business or breaching a provision of its agreement with Equity Trustees. In this event, Fat Prophets will be entitled to accrued management fees and expenses incurred in respect of the period to termination.

Fund risk

Risks particular to the Fund include that it could terminate (for example, at a date we decide), the fees and expenses could change (although we would always give you at least 30 days' notice if fees were to increase), we could be replaced as responsible entity and our management and staff could change. There is also a risk that investing in the Fund may give different results than investing individually because of income or capital gains accrued in the Fund and the consequences of investment and withdrawal by other investors.

Currency risk

For investments in offshore shares, a rise in the Australian dollar relative to a particular currency in which the share is purchased may negatively impact investment values and returns. As such, an appreciation of the Australian dollar versus a given offshore currency would have a negative impact on the value of your investment while a depreciation would likely have a positive effect, as measured in Australian dollars. Fat Prophets may use currency hedging, including by way of forward foreign exchange contracts and exchange traded funds and exchange traded derivatives, for risk management to reduce the risk of adverse fluctuations in the value of the Australian dollar relative to other currencies. Where the risk is hedged, the hedge may not provide complete protection from currency movements.

Derivative risk

In addition to managing currency risk, derivatives may be used to manage equity risk exposure by using exchange traded funds, exchange traded derivatives, including but not limited to exchange traded futures and exchange traded options, and over the counter equity swaps to gain economic exposure to securities in restricted markets.

Derivatives are highly specialised instruments that require investment techniques and risk analysis different from those associated with equity securities. The use of a derivative requires an understanding not only of the underlying instrument, but also of the derivative itself. In particular, the use and complexity of derivatives requires the maintenance of adequate controls to monitor the transactions entered into and the ability to assess the risk that a derivative transaction adds to a portfolio. As such, there can be no guarantee or assurance that the use of derivatives will meet or assist in meeting the investment objectives of the Fund.

Derivatives can be highly volatile and expose investors to a high risk of loss. The low initial margin deposits normally required to establish a position in such instruments permit a high degree of leverage. As a result, depending on the type of instrument, a relatively small movement in the price of a contract may result in a profit or a loss which is high in proportion to the amount of funds actually placed as initial margin and may result in unquantifiable further loss exceeding any margin deposited. In addition, daily limits on price fluctuations and speculative position limits on exchanges may prevent prompt liquidation of positions resulting in potentially greater losses.

Securities Exchange liquidity risk

The liquidity of trading in the units on a Securities Exchange may be limited. This may affect an investor's ability to buy or sell units. Investors will not be able to purchase or sell units on a Securities Exchange during any period that the Securities Exchange suspends trading of units in the Fund.

iNAV risk

The iNAV published for the Fund is indicative only and might not accurately reflect the underlying value of the Fund. As a consequence the Fund may be subject to market making risk.

Third Party Service Providers

Equity Trustees engages industry-recognised third party service providers which have a market reputation for providing their respective services. Equity Trustees also negotiates agreements with their third party service providers which are suitable to both parties.

Price of units on the Securities Exchange

The price at which the units may trade on a Securities Exchange may differ materially from the NAV per unit and the iNAV.

The Fund may be removed from quotation by the ASX or terminated

ASX imposes certain requirements for the continued quotation of securities, such as the Fund's units, on the ASX under the AQUA Rules. Investors cannot be assured that the Fund will continue to meet the requirements necessary to maintain quotation on the ASX. In addition, the ASX may change the quotation requirements.

The Responsible Entity may elect, in accordance with the Constitution and Corporations Act, to terminate the Fund for any reason including if units cease to be quoted on the ASX. Information about the AQUA Rules applicable to quotation of units in the Fund on the ASX is set out in Section 3 of this PDS.

Market making risk

The Responsible Entity acts as market maker in the units on behalf of the Fund and may provide liquidity to investors on the ASX by acting as a buyer and seller of units in the Fund. There is a risk that the Responsible Entity may not always be able to make a market in times of uncertainty about the value of the portfolio due to its duty to act in the best interests of members. The Fund will bear the risk of the market making activities undertaken by the Responsible Entity on the Fund's behalf which may result in a profit or loss to the Fund and investors. There is a risk that the Fund could suffer a material cost as a result of these market making activities which may adversely affect the NAV of the Fund and the value of investors' holdings regardless of whether the units were acquired on the ASX or directly with the Administrator. Such a cost could be caused by either an error in the execution of market making activities or in the price at which units are transacted on the ASX. As many overseas share markets in which the Fund invests are closed during the ASX Trading Day, it is possible that the Fund is not able to execute its preferred hedging strategy. As such, the Fund may bear the next day pricing risk for any net units it has traded on the ASX.

In order to mitigate this risk, the Responsible Entity has the discretion to increase the spread at which it makes a market and also has the right to cease making a market subject to its obligations under the AQUA Rules and ASX Operating Rules.

Market making agent risk

The Responsible Entity has appointed a market making agent to execute the Fund's market making activities and provide settlement services. There is a risk that the market making agent could make an error in executing the Fund's market making activities. Additionally, the Fund may enter into transactions to acquire or to liquidate assets in anticipation of the market making agent fulfilling its settlement processing obligations in a correct and timely manner. If the market making agent does not fulfil its settlement processing obligations in a correct and timely manner, the Fund could suffer a loss.

Liquidity risk

There are circumstances under which access to your money may be delayed. Further, the level of overall market liquidity is an important factor that may contribute to the profitability of the Fund and access to your money. Illiquid markets can make it difficult to trade profitably and to realise assets in a timely fashion to meet withdrawal requests.

Regulatory risk

This is the risk that the value or tax treatment of either the Fund itself or investments of the Fund, or the effectiveness of a Fund's trading or investment strategy, may be adversely affected by changes in government (including taxation) policies, regulations and laws, or changes in generally accepted accounting policies or valuation methods.

Counterparty risk

The Fund uses the service of a Prime Broker to facilitate the lending of securities to short-sell. Until the Fund returns a borrowed security, it will be required to maintain assets with the Prime Broker as collateral. As such, the Fund may be exposed to certain risks in respect of that collateral including that the Fund:

- will be required to post initial margin/collateral to the counterparty in the form of cash. The Fund will need to have sufficient liquid assets to satisfy this obligation;
- may from time to time, if the value of short positions move against it, be required to post variation margin/collateral with the counterparty on an ongoing basis. The Fund will need to have sufficient liquid assets to satisfy such calls, and in the event it fails to do so, the counterparty may have a right to terminate such arrangements; and
- may be subject to the credit risk of the counterparty. In the event the counterparty becomes insolvent at a time it holds margin/collateral posted with it by the Fund, the Fund will be an unsecured creditor and will rank behind other secured creditors. In the event of insolvency of the Custodian or the Prime Broker, the Fund may not be able to recover the entire value of the relevant securities.

Operational risk

Operational risk includes those risks which arise from carrying on a funds management business. The operation of the Fund requires Equity Trustees, the investment manager, the custodian, the unit registry, the administrator, the agent appointed by the Responsible Entity to provide liquidity to investors and other service providers to implement sophisticated systems and procedures. Some of these systems and procedures are specific to the operation of the Fund. Inadequacies with these systems and procedures or the people operating them could lead to a problem with the Fund's operation and result in a decrease in the value of units.

Leverage risk

The Manager does intend to use debt to increase the scale of the Portfolio and the use of derivatives and short selling may have an effect similar to leverage in that it can magnify the gains and losses achieved in the Portfolio in a manner similar to a debt leveraged portfolio. These risks give rise to the possibility that positions may have to be liquidated at a loss and not a time of the Manager's choosing.

Short selling risk

Risks associated with short selling include: (a) short squeezes driven by a surge in the underlying value of the security; (b) a "buy in", which occurs when a broker-dealer closes out short positions in a difficult-to-borrow stock because its lenders are demanding it back; (c) intervention by market regulators such as the imposition of bans on short sales in a specific sector or even in the broad market to avoid panic and unwarranted selling pressure. Such actions can cause a sudden spike in stock prices, forcing the short seller to cover short positions at huge losses.

Short selling is also subject to the theoretically unlimited risk of loss because there is no limit on how much the price of a security may appreciate.

The risks associated with short-selling will be managed through thorough research, qualified key personnel at the Investment Manager making investment decisions, and ongoing monitoring of positions held.

Limited diversification

While the Manager seeks to diversify the Portfolio by asset classes, securities and industries, there will be a concentration of exposure in individual asset classes, securities or industries. The Company has flexibility to take significant positions in individual investments and the Portfolio may be less diversified than those of other managers.

8. The investment objective and strategy

The Fund is generally suited for persons seeking exposure to global equities with a focus on disruptive themes.

Investment objective	The Fund's objectives are to maximise total returns on behalf of unit holders over time, while remaining mindful of managing risk and reducing portfolio volatility. This is not intended to be a forecast, it is merely an investment objective of the Fund. The Fund may not be successful in meeting this objective

Fund performance	Up to date information on the performance of the Fund can be obtained from TBC. A free of charge paper copy of the information will also be available on request.

Investment style and approach

The investment process combines top down fundamental qualitative and quantitative research with market timing technical analysis. The Investment Manager assess company valuations based on an analysis of forecast future cash flows - this includes obtaining open market valuations for listed instruments and daily valuations from the calculation agent for any OTC derivative. While qualitative analysis can provide a basis for assessing price and value, technical analysis can assist with timing entry and exit with investments. Stock weightings typically range from 2% to 10% depending on risk weights applied. That results in a diversified portfolio with the number of holdings in the range 20 – 50.

Investment risk is primarily managed through close analytical attention. Capital preservation can be managed by holding up to 100% cash. Index and currency options and futures, exchange traded funds and spot FX transactions may also be used to manage risk. Forward foreign exchange contracts may also be used to manage currency risk.

The typical currency denomination of the assets includes the Australian Dollar (AUD), United States Dollar (USD), the British Pound Sterling (GBP), the Euro (EUR) and Hong Kong Dollar (HKD). The typical location of the assets includes Australia, the United States of America, Europe, the United Kingdom and Asia.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

The Investment Manager do not generally take into account labour standards or environmental, social or ethical considerations for the purposes of selecting, retaining or realising investments.

Leverage

The Fund may use leverage so that the exposure to the assets of the Fund is 275% of the Fund's NAV. This means that for every \$1 of the Fund's NAV, the Fund may leverage up to \$2.75. This means that, compared to an unleveraged fund, assuming that the Fund reaches its exposure of 275% of NAV, then:

- a 1% increase in the return on assets of the Fund will result in a 2.75% increase in the return to investors; and
- a 1% decrease in the return on assets of the Fund will result in a 2.75% decrease in the return to investors.

This example is for illustration purposes only and is not intended to be an indication of actual increases (or decreases) in any return on assets of the Fund.

The maximum anticipated use of leverage will be up to 275% of the NAV of the Fund.

The Prime Broker is the primary provider of Leverage to the Fund. In return for the provision of leverage, the Fund's will post collateral to the Prime Broker which will include International and Australian listed securities and International Government Bonds which are held in the portfolio. The amount of the Fund's assets posted as collateral may be greater than the amount of the Leverage.

Please see section 7 for information on the risks associated with leverage and counterparty risk.

Short-selling

The Fund will employ short-selling as part of its investment strategy.

Short selling is the practice of selling securities that have been borrowed from a securities lender and selling them in the market for cash leaving the Fund with a "short" position. This is done in the expectation that the Fund can repurchase the securities at a price lower than the initial sale price due to the value of the securities falling and then return the securities to the securities lender.

The rationale of employing short-selling is to achieve returns when the price of a specific security is expected to go down. Short-selling has an effect similar to leverage in that it can magnify the gains and losses achieved in the Portfolio in a manner similar to a debt leveraged portfolio.

Short selling on equities will be facilitated through the Fund's Prime Broker and will be covered with borrowed stock. The Fund may also use futures to take short positions in interest rates, bonds and commodities.

Please see section 7 for information on the risks associated with short-selling.

9. Fees and other costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC) Moneysmart website** (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Fees and other costs

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole.

Taxes are set out in another part of this document. You should read all the information about fees and costs because it is important to understand their impact on your investment.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 1.77% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests and the costs of investing in over-the-counter derivatives to gain investment exposure to assets or implement the Fund's investment strategy (if any). The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Performance fees

Performance fees include amounts that are calculated by reference to the performance of the Fund. The estimated

performance fees for the Fund are 0.49% of the NAV of the Fund. As the Fund is first offered in the current financial year, the performance fee figure that is disclosed in the Fees and Costs Summary is calculated by reference to a reasonable estimate of the performance fee for the current financial year, adjusted to reflect a 12 month period.

In relation to the performance fees that have been estimated, they have been estimated on the basis of relevant information for a similar investment in the market offered by the Investment Manager.

A performance fee of 20.2% inclusive of GST and RITC of the performance of the Fund is payable to the Investment Manager, calculated monthly and payable quarterly, based on the difference between the NAV of the Fund at the end of the relevant period and highest NAV of the Fund of any preceding period, adjusted for applications and redemptions and distributions, over the relevant period.

No performance fees are payable until any accrued underperformance (in dollar terms) from prior periods has been made up (this feature is sometimes referred to as a high-watermark).

Please note that the performance fees disclosed in the Fees and Costs Summary is not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will outperform the Benchmark.

It is not possible to estimate the actual performance fee payable in any future period, as we cannot forecast what the performance of the Fund will be. Information on current performance fees will be updated from time to time and available at www.eqt.com.au/insto.

Performance fee example

The example below is provided for illustrative purposes only and does not represent any actual or prospective performance of the Fund. We do not provide any assurance that the Fund will achieve the performance used in the example and you should not rely on this example in determining whether to invest in the Fund.

Example 1

Assumptions:

- At the end of the quarter on 30 March 2022, the NAV is \$12,000,000;
- The Fund pay a distribution of \$300,000 in the quarter ended 30 June 2022;
- The net applications and redemptions are inflows of \$500,000 in the quarter ended 30 June 2022; and
- At the end of the quarter on 30 June 2022, the NAV is \$14,000,000.

Calculation: $0.20 \times (14,000,000 - 12,000,000 - 500,000 + 300,000) = \$360,000$

Therefore, the Performance Fee is \$360,000 (plus GST)

Example 2

Assumptions:

- At the end of the quarter on 30 June 2022, the NAV is \$14,000,000;
- The net applications and redemptions are inflows of \$500,000 in the quarter ended 30 June 2022; and
- At the end of the quarter on 30 September 2022, the NAV is \$12,000,000.

Calculation: $0.20 \times (12,000,000 - 14,000,000 - 500,000) = -\$500,000$

There is no Performance Fee because the formula produces a negative number.

Example 3

Assumptions:

- At the end of the quarter on 30 September 2022, the NAV is \$12,000,000;
- The net applications and redemptions are inflows of \$500,000 in the quarter ended 30 June 2022; and
- At the end of the quarter on 31 December 2022, the NAV is \$15,000,000.

In this calculation, the previous highest NAV will be \$14,000,000

Calculation: $0.20 \times (15,000,000 - 14,000,000 - 500,000) = -\$100,000$

Therefore, the Performance Fee is \$100,000 (plus GST)

Please note that the NAV specified in this example:

- is only an example to assist investors to understand how the performance related fee is calculated and the effect of the performance related fee expense on the investment return of the Fund; and
- is **not** a forecast of the expected Net Portfolio Value for the Fund.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread,

and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread when buying or selling units directly with the Administrator is 0.25% upon entry and 0.25% upon exit. The dollar value of these costs based on an application or a withdrawal of \$5,000 is \$12.50 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.19% p.a. of the NAV of the Fund, which is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12 month period.

In relation to the costs that have been estimated, they have been estimated on the basis of relevant information for a similar investment in the market offered by the Investment Manager.

However, actual transaction costs for future years may differ.

The price at which investors buy and sell units on the Securities Exchange may vary from the prevailing iNAV. The prices on the Securities Exchange are determined in the secondary market by market participants. The difference, or spread, from the prevailing iNAV may represent a cost, or possible benefit, of an investment in the Fund. Where units in the Fund are bought and sold on the Securities Exchange, the price at which an investor buys or sells units will generally include an allowance to cover transaction costs but will also reflect market conditions and supply and demand for units during the Trading Day. As such, the cost of the spread on the Securities Exchange may be different to the cost of the 'buy spread' or 'sell spread' for investors who apply or withdraw directly with the Administrator.

Stockbroker fees for investors

Investors will incur customary brokerage fees and commissions when buying and selling the units on the ASX. Investors should consult their stockbroker for more information in relation to their fees and charges.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable

expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Fat Prophets Global High Conviction Hedge Fund		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	1.77% p.a.	And, for every \$50,000 you have in the Fat Prophets Global High Conviction Hedge Fund you will be charged or have deducted from your investment \$885 each year
Plus Performance fees	0.49% p.a.	And, you will be charged or have deducted from your investment \$245 in performance fees each year
Plus Transaction costs	0.00% p.a.	And, you will be charged or have deducted from your investment \$0 in transaction costs
Equals Cost of Fat Prophets Global High Conviction Hedge Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$1,130* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on a reasonable estimate of the performance fee for the current financial year, adjusted to reflect a 12-month period. The performance of the Fund for this financial year, and the performance fees, may be higher or lower or not payable in the future. It is not a forecast of the performance of the Fund or the amount of the performance fees in the future.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on +612 9163 3333 for further information.

Taxation

Please refer to Section 10 of the Product Disclosure Statement for further information on taxation.

10. About the AQUA rules and CHESS

AQUA Rules framework

The units are admitted to trading status on the ASX and are quoted under the AQUA Rules framework. The AQUA Rules are accessible at www.asx.com.au.

The following table sets out the key differences between the ASX Listing Rules and the AQUA Rules.

Requirement	ASX Rules	AQUA Rules
Continuous disclosure	Issuers are subject to continuous disclosure requirements under ASX Listing Rule 3.1 and section 674 of the Corporations Act.	<p>Issuers of products quoted under the AQUA Rules are not subject to the continuous disclosure requirements in ASX Listing Rule 3.1 and section 674 of the Corporations Act.</p> <p>The Responsible Entity will comply with the disclosure requirements in section 675 of the Corporations Act. This means that the Responsible Entity will disclose to ASIC information which is not generally available and that a reasonable person would expect, if the information were generally available, to have a material effect on the price or value of the units, provided that such information has not already been included in this PDS (as supplemented or amended).</p> <p>The Responsible Entity will publish such information on the ASX announcements platform and its website at www.eqt.com.au/insto at the same time as it is disclosed to ASIC.</p> <p>Under AQUA Rule 10A.4, the Responsible Entity must disclose:</p> <ul style="list-style-type: none"> • information about the NAV of the Fund's underlying investments daily; • information about withdrawals from the Fund; • information about distributions paid in relation to the Fund; • any other information which is required to be disclosed to ASIC under section 675 of the Corporations Act; and • any other information that would be required to be disclosed to the ASX under section 323DA of the Corporations Act if the units were admitted under the ASX Listing Rules. <p>In addition, under the AQUA Rules the Responsible Entity must immediately notify the ASX of any information the non-disclosure of which may lead to the establishment of a false market in the units or which would be likely to materially affect the price of the units.</p>
Periodic disclosure	Issuers are required to disclose half-yearly and annual financial information and reports to the ASX announcements platform.	<p>Issuers of products quoted under the AQUA Rules are not required to disclose half-yearly or annual financial information or reports to the ASX announcements platform.</p> <p>The Responsible Entity is required to lodge financial information and reports in respect of the Fund with ASIC under Chapter 2M of the Corporations Act.</p>

Corporate governance	Listed companies and listed managed investment schemes are subject to notification requirements under the Corporations Act and the ASX Listing Rules relating to takeover bids, buy-backs, change of capital, new issues, restricted securities, disclosure of directors' interests and substantial shareholdings.	Although the units are quoted under the AQUA Rules, neither the Fund nor the Responsible Entity itself is listed and they are therefore not subject to certain corporate governance requirements. The Responsible Entity will still be required to comply with the related party requirements in Part 5C.7 and Chapter 2E of the Corporations Act and section 601FM of the Corporations Act including that the Responsible Entity may be removed by an extraordinary resolution of members on which the Responsible Entity would not be entitled to vote.
Related Party transactions	Chapter 10 of the ASX Listing Rules relates to transactions between an entity and a person in a position to influence the entity and sets out controls over related party transactions.	Chapter 10 of the ASX Listing Rules does not apply to AQUA Rules quoted products. The Responsible Entity will still be required to comply with the related party requirements in Part 5C.7 and Chapter 2E of the Corporations Act.
Auditor rotation obligations	Division 5 of Part 2M.4 of the Corporations Act imposes specific rotation obligations on auditors of listed companies and listed managed investment schemes.	Issuers of products quoted under the AQUA Rules are not subject to the auditor rotation requirements in Division 5 of Part 2M.4 of the Corporations Act. An auditor will be appointed by the Responsible Entity to audit the financial statements and Compliance Plan of the Fund.

About CHESSE

The Responsible Entity participates in the CHESSE. CHESSE is a fast and economical clearing and settlement facility which also provides an electronic sub-register service. The Unit Registry has established and will maintain an electronic sub-register with CHESSE on behalf of the Responsible Entity.

The Responsible Entity will not issue investors with certificates in respect of their units. Instead, when investors purchase units on the ASX they will receive a holding statement from the Unit Registry which will set out the number of units they hold. The holding statement will specify the "Holder Identification Number" or "Shareholder Reference Number" allocated by CHESSE.

Subject to ASX Operating Rules and the ASX Listing Rules, the Responsible Entity may decline to register a purchaser of a unit or units.

11. Taxation

Taxation

The following information summarises some of the Australian income tax issues you may wish to consider before investing in the Fund and assumes that you hold your investment in the Fund on capital account and are not considered to be carrying on a business of investing, trading in investments or investing for the purpose of profit making by sale. The information should be used as a guide only and does not constitute professional tax advice as individual circumstances may differ.

This summary is based on the Australian income tax law and the interpretation of the Australian Taxation Office ("ATO") as at the date of this PDS. It is noted that the tax law and interpretations may be the subject of tax reform measures by the Australian Government and the ATO's interpretation of these reforms may impact the tax position of the Fund and its investors. Accordingly, it is recommended that investors seek their own professional tax advice, specific to their own circumstances prior to investing in the Fund.

General

The Fund is an Australian resident trust for Australian income tax purposes. The Fund meets the requirements of a Managed Investment Trust ("MIT") and Attribution Managed Investment Trust ("AMIT") and has elected to be an AMIT. The Fund is treated as flow through entity and unit holders will be attributed the determined member components and advised of this in the AMIT member annual ("AMMA") statement. In the event the Fund ceases to meet the requirements to be an AMIT, it may be treated as a flow through entity under Division 6 or the MIT rules if unit holders are presently entitled to the net income of the trust and advised of this in a distribution statement. If the Fund is a Division 6C Trust it will be taxed as a company (this is not expected to be the case).

As an Australian resident trust for tax purposes, the Fund is required to determine its net income (taxable income) for the year of income. On the basis that investors are presently entitled (which is the intention of Equity Trustees) to the net income of the Fund (including net taxable capital gains) or will be attributed their share of assessable income, exempt income, non-assessable non-exempt income and tax offsets (i.e. credits) of the Fund and the Fund is not a public trading trust, the Fund should be treated as a flow-through trust for tax purposes. This means that investors should be taxed on their share of the Fund's net taxable income or the amount attributed to them, as advised in a distribution statement or AMMA statement, and the Fund should not be subject to Australian income tax.

In the case where the Fund makes a loss for Australian income tax purposes, the Fund cannot distribute the tax loss to investors. However, the tax loss may be carried forward by the Fund for offset against taxable income of the Fund in subsequent years, subject to the operation of the trust loss rules.

Attribution Managed Investment Trust ("AMIT") – core rules

The Fund currently qualifies as an eligible Attribution Managed Investment Trust ("AMIT") and it has elected into the AMIT regime from 1 July 2017. The AMIT legislation applies an attribution model whereby Equity Trustees as the Responsible Entity of the Fund attributes amounts of determined member trust components of a particular character to investors on a fair and reasonable basis consistent with the operation of the Fund's Constitution, which includes provisions in relation to AMIT. Under the AMIT rules, the following will apply:

Fair and reasonable attribution: Each year, the Fund's determined trust components of assessable income, exempt income, non-assessable non-exempt income and tax offsets (i.e.

credits) will be allocated to investors on a "fair and reasonable" attribution basis, rather than being allocated proportionally based on each investor's present entitlement to the income of the Fund.

Unders or overs adjustments: Where the Fund's determined trust components for a year are revised in a subsequent year (e.g. due to actual amounts differing to the estimates of income, gains / losses or expenses), then unders and overs may arise. Unders and overs will generally be carried forward and adjusted in the year of discovery.

Cost base adjustments: Where the distribution made is less than (or more than) certain components attributed to investors, then the cost base of an investor's units may be increased (or decreased). Details of cost base adjustments will be included on an investor's AMMA statement.

Large withdrawals: In certain circumstances, gains may be attributed to a specific investor, for example, gains on disposal of assets to fund a large withdrawal being attributed to the redeeming investor.

Penalties: In certain circumstances (e.g. failure to comply with certain AMIT rules), specific penalties may be imposed.

The rules are intended to reduce complexity, increase certainty and reduce compliance costs for managed investment schemes and their investors. Where the Fund has made the election but the election is not effective for the income year (e.g. the Fund does not satisfy the requirements to be a managed investment scheme for the income year), the Tax Law applicable to non-AMITs should be relevant. In particular, the Fund should not generally pay tax on behalf of its investors and instead, investors should be assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled.

Deemed Capital Gains Tax ("CGT") Election

Eligible managed investment trusts ("MITs") may make an election to apply a deemed capital account treatment for gains and losses on disposal of certain eligible investments (including equities and units in other trusts but excluding derivatives, debt securities and foreign exchange contracts). The Fund has made the election, and as such holds its eligible investments on capital account and gains/(losses) from the disposal of eligible investments should be treated as capital gains/(losses). Capital gains arising on the disposal of eligible investments held for 12 months or greater may be eligible to be treated as discount capital gains (50% for individuals and certain trusts (conditions apply) or 33.3% for complying superannuation funds).

Australian Taxation of Australian Resident Investors

Distributions

For each year of income, each Australian resident investor will be required to include within their own tax calculations and tax return filings their share of taxable income and tax offsets of the Fund attributed to them by Equity Trustees as the Responsible Entity of the Fund.

The tax consequences for investors in the Fund depends on the tax components of assessable income, exempt income, non-assessable non-exempt income and tax offsets of the Fund attributed to them.

If an amount of discount capital gains is derived by the Fund and included in the investors share of the Funds net taxable income, the investor will be required to gross up the discount capital gain. The investor will then be able to apply any capital losses available to them to reduce the capital gain.

Investors will receive an Annual Tax Statement (or an "AMMA" for an AMIT) detailing all relevant taxation information concerning attributed amounts and cash distributions, including

any Foreign Income Tax Offset ("FITO") and franking credit entitlements, returns of capital, assessable income, and any upwards or downwards cost base adjustment in the capital gains tax cost base of their units in the Fund (in the case of an AMIT).

The investors tax cost base in their units is increased where taxable income is "attributed" to them. Where there has been an amount of discount capital gains derived by the Fund, an amount equal to double the discounted capital gain amount will be included in the increased tax cost base. The tax cost base is decreased where cash distribution entitlements are made to an investor in respect of their units. In addition, reductions are made in respect of certain tax offsets (such as the franking credit tax offset and foreign income tax offset). Where a unit holder's tax cost base is reduced below zero, a taxable capital gain will be made. Unit holders will be advised of the net cost base adjustment amount in their AMMA statement.

An investor may receive their share of attributed tax components of the Fund or net income in respect of distributions made during the year or where they have made a large withdrawal from the Fund, in which case their withdrawal proceeds may include their share of net income or attributed tax components of assessable income, exempt income, non-assessable non-exempt income and tax offsets. In addition, because Australian investors can move into and out of the Fund at different points in time, there is the risk that taxation liabilities in respect of gains that have benefited past investors may have to be met by subsequent investors.

Foreign Income

The Fund may derive foreign source income that is subject to tax overseas, for example withholding tax. Australian resident investors should include their share of both the foreign income and the amount of the foreign tax withheld in their assessable income. In such circumstances, investors may be entitled to a FITO for the foreign tax paid, against the Australian tax payable on the foreign source income. To the extent the investors do not have sufficient overall foreign source income to utilise all of the FITOs relevant to a particular year of income, the excess FITOs cannot be carried forward to a future income year.

In light of the recent Full Federal Court decision in the Burton¹ case, and the ATO's subsequent Decision Impact Statement, the ability of unit holders to claim the full FITO may be limited in circumstances when they are in receipt of discounted foreign capital gains. ATO guidance is still being sought in relation to the approach of attribution of the amount of FITO and required disclosure. In this regard, unit holders will be required to determine their own FITO entitlement.

Disposal of units by Australian Resident Investors

If an Australian resident investor transfers or redeems their units in the Fund, this may constitute a disposal for tax purposes depending on their specific circumstances.

Where an investor holds their units in the Fund on capital account, a capital gain or loss may arise on disposal and each investor should calculate their capital gain or loss according to their own particular facts and circumstances. As noted above, proceeds on disposal may include a component of distributable income. In calculating the taxable amount of a capital gain, a discount of 50% for individuals and certain trusts (conditions apply) or 33.3% for complying Australian superannuation funds may be allowed where the units in the Fund have been held for 12 months or more. No CGT discount is available to corporate investors.

Any capital losses arising from the disposal of the investment may be used to offset other capital gains the investor may have derived. Net capital losses may be carried forward for offset against capital gains of subsequent years but may not be offset against ordinary income.

Australian Taxation of Non-Resident Investors

Tax on Income

The Fund expects to derive income which may be subject to Australian withholding tax when attributed by Equity Trustees as the Responsible Entity of the Fund to non-resident investors.

Australian withholding tax may be withheld from distributions of Australian source income and gains attributed to a non-resident investor. The various components of the net income of the Fund which may be regarded as having an Australian source include Australian sourced interest, Australian sourced other gains, Australian sourced dividends and CGT taxable Australian property.

We recommend that non-resident investors seek independent tax advice before investing, taking into account their particular circumstances and the provisions of any relevant Double Taxation Agreement/ Exchange of Information Agreement ("EOI") between Australia and their country of residence.

Disposal of units by Non-Resident Investors

Based on the Fund's investment profile, generally non-resident investors holding their units on capital account should not be subject to Australian capital gains tax on the disposal of units in the Fund unless the units were capital assets held by the investor in carrying on a business through a permanent establishment in Australia. Australian income tax may apply in certain circumstances if the non-resident holds their units on revenue account. CGT may also apply in some cases where the Fund has a direct or indirect interest in Australian real property. We recommend that non-resident investors seek independent tax advice in relation to the tax consequences of the disposal of their units.

Taxation of Financial Arrangements ("TOFA")

The TOFA rules may apply to certain "financial arrangements" held by the Fund. In broad terms, the TOFA regime seeks to recognise "sufficiently certain" returns on certain financial arrangements on an accruals basis for tax purposes rather than on a realisation basis. Where returns from derivative instruments are not "sufficiently certain" they will continue to be recognised on a realisation basis, unless specific tax timing elections are made.

Taxation Reform

The tax information included in this PDS is based on the taxation legislation and administrative practice as at the issue date of this PDS. However, the Australian tax system is in a continuing state of reform, and based on the Government's reform agenda, it is likely to escalate rather than diminish. Any reform of a tax system creates uncertainty as to the full extent of announced reforms, or uncertainty as to the meaning of new law that is enacted pending interpretation through the judicial process. These reforms may impact on the tax position of the Fund and its investors. Accordingly, it will be necessary to closely monitor the progress of these reforms, and investors should seek their own professional tax advice, specific to their own circumstances, of the taxation implications of investing in the Fund.

Annual Reporting

The Fund will be required to provide distribution information (including tax components) to the ATO on an annual basis by lodging the Annual Investment Income Report ("AIIR"). The Fund will also seek provide annual tax distribution statements to investors in accordance with the ATO's guidelines for AMIT's. The tax distribution statement will reconcile the cash distribution with the taxable distribution for the income year and identify the various trust components included in the distribution for the income year.

Tax File Number ("TFN") and Australian Business Number ("ABN")

As the Fund is an Investment Body, the Fund will be required to obtain a TFN or ABN in certain cases from its investors. It is not compulsory for an investor to quote their TFN or ABN. If an investor is making this investment in the course of a business or enterprise, the investor may quote an ABN instead of a TFN. However, failure by an investor to quote an ABN or TFN or claim an exemption may cause the Responsible Entity to withhold tax at the top marginal rate, plus the Medicare Levy (currently 47%), on gross payments including distributions or attribution of income to the investor. The investor may be able to claim a credit in their tax return for any TFN or ABN tax withheld. Collection of TFNs is permitted under taxation and privacy legislation.

By quoting their TFN or ABN, the investor authorises Equity Trustees to apply it in respect of all the investor's investments with Equity Trustees. If the investor does not want to quote their TFN or ABN for some investments, Equity Trustees should be advised.

GST

The Fund is registered for GST. The issue or withdrawal of units in the Fund and receipt of distributions are not subject to GST.

The Fund may be required to pay GST included in management and other fees, charges, costs and expenses incurred by the Fund. However, to the extent permissible, the Responsible Entity will claim on behalf of the Fund a proportion of this GST as a reduced input tax credit. Unless otherwise stated, fees and charges quoted in this PDS are inclusive of GST and take into account any available reduced input tax credits. The Fund may be entitled to as yet undetermined additional input tax credits on the fees, charges or costs incurred. If the Responsible Entity is unable to claim input tax credits on behalf of the Fund, the Responsible Entity retains the ability to recover the entire GST component of all fees and charges.

The impact of GST payments and credits will be reflected in the unit price of the Fund. Investors should seek professional advice with respect to the GST consequences arising from their unit holding.

12. Other important information

Cooling off period

Investors do not have cooling-off rights in respect of units in the Fund (regardless of whether they were purchased on a Securities Exchange or applied for directly with the Administrator).

ASIC relief

The Responsible Entity relies on ASIC Class Order 13/721 which exempts it from the ongoing disclosure requirements in section 1017B of the Corporations Act on the condition that the Responsible Entity complies with section 675 of the Corporations Act as if the Fund was an unlisted disclosing entity. The Responsible Entity will comply with the continuous disclosure requirements of the Corporations Act as if the Fund was an unlisted disclosing entity.

ASX conditions of admission

As part of the Fund's conditions of admission to the ASX under the AQUA Rules, the Responsible Entity has agreed to:

- disclose the Fund's portfolio holdings on a quarterly basis within two months of the end of each calendar quarter;
- provide liquidity to investors by acting as a buyer and seller of units as described; and
- provide the iNAV as described in this PDS.

Consent

The Investment Manager has given and, as at the date of this PDS, has not withdrawn:

- written consent to be named in this PDS as the investment manager of the Fund; and
- written consent to the inclusion of the statements made about them which are specifically attributed to them, in the form and context in which they appear.

The Investment Manager has not otherwise been involved in the preparation of this PDS or caused or otherwise authorised the issue of this PDS. Neither the Investment Manager nor its employees or officers accept any responsibility arising in any way for errors or omissions, other than those statements for which it has provided its written consent to Equity Trustees for inclusion in this PDS.

Constitution of the Fund

You will be issued units in the Fund when you invest. Subject to the rights, obligations and restrictions of units, each unit represents an equal undivided fractional beneficial interest in the assets of the Fund as a whole subject to liabilities, but does not give you an interest in any particular property of the Fund.

Equity Trustees' responsibilities and obligations, as the Responsible Entity of the Fund, are governed by the Constitution as well as the Corporations Act and general trust law. The Constitution contains a number of provisions relating to the rights, terms, conditions and obligations imposed on both Equity Trustees, as the responsible entity of the Fund, and investors. Some of the provisions of the Constitution are discussed elsewhere in this PDS.

Other provisions relate to an investor's rights under the Constitution, and include:

- an investor's right to share in any Fund income, and how we calculate it;
- what you are entitled to receive when you withdraw or if the Fund is wound up;
- an investor's right to withdraw from the Fund - subject to the times when we can cease processing withdrawals, such as if the Fund becomes 'illiquid';

- the nature of the units - identical rights attach to all units within a class; and
- an investor's rights to attend and vote at meetings – these provisions are mainly contained in the Corporations Act.

There are also provisions governing our powers and duties, including:

- how we calculate unit prices, the maximum amount of fees we can charge and expenses we can recover;
- when we can amend the Constitution - generally we can only amend the Constitution where we reasonably believe that the changes will not adversely affect investors' rights. Otherwise, the Constitution can only be amended if approved at a meeting of investors. To the extent that any contract or obligation arises in connection with the acceptance by Equity Trustees of an application or reliance on this PDS by an investor, any amendment to the Constitution may vary or cancel that contract or obligation. Further, that contract or obligation may be varied or cancelled by a deed executed by Equity Trustees with the approval of a special resolution of investors, or without that approval if Equity Trustees considers the variation or cancellation will not materially and adversely affect investor's rights;
- when we can retire as the Responsible Entity of the Fund - which is as permitted by law;
- when we can be removed as the Responsible Entity of the Fund - which is when required by law; and
- our broad powers to invest, borrow and generally manage the Fund.

The Constitution also deals with our liabilities in relation to the Fund and when we can be reimbursed out of the Fund's assets.

For example:

- subject to the Corporations Act we are not liable for acting in reliance and good faith on professional advice;
- subject to the Corporations Act we are not liable for any loss; and
- we can be reimbursed for any liabilities we incur in connection with the proper performance of our powers and duties in respect of the Fund.

As mentioned above, Equity Trustees' responsibilities and obligations as the Responsible Entity of the Fund are governed by the Constitution of the Fund, the Corporations Act and general trust law, which require that we:

- act in the best interests of investors and, if there is a conflict between investors' interests and our own, give priority to investors;
- ensure the property of the Fund is clearly identified, held separately from other funds and our assets, and is valued regularly;
- ensure payments from the Fund's property are made in accordance with the Constitution and the Corporations Act; and
- report to ASIC any breach of the Corporations Act in relation to the Fund which has had, or is likely to have, a materially adverse effect on investors' interests as well as other significant breaches required by law. Copies of the Constitution are available, free of charge, on request from Equity Trustees.

A copy of the Constitution of the Fund is available, free of charge, on request from Equity Trustees.

Quoting of units

The units in the Fund are quoted and traded on the ASX AQUA Platform.

Termination of the Fund

The Responsible Entity may resolve at any time to terminate and liquidate the Fund (if it provides investors with notice) in accordance with the Constitution and the Corporations Act. Upon termination and after conversion of the assets of the Fund into cash and payment of, or provision for, all costs, expenses and liabilities (actual and anticipated), the net proceeds will be distributed pro-rata among all investors according to the aggregate of the Withdrawal Price for each of the units they hold in the Fund.

Our legal relationship with you

Equity Trustees' responsibilities and obligations, as the responsible entity of the Fund, are governed by the Constitution of the Fund, as well as the Corporations Act and general trust law. The Constitution of the Fund contains a number of provisions relating to the rights, terms, conditions and obligations imposed on both Equity Trustees, as the responsible entity of the Fund, and investors. Equity Trustees may amend the Constitution if it considers that the amendment will not adversely affect investors rights. Otherwise the Constitution may be amended by way of a special resolution of investors. To the extent that any contract or obligation arises in connection with the acceptance by Equity Trustees of an application or reliance on this PDS by an investor, any amendment to the Constitution may vary or cancel that contract or obligation. Further, that contract or obligation may be varied or cancelled by a deed executed by Equity Trustees with the approval of a special resolution of investors, or without that approval if Equity Trustees considers the variation or cancellation will not materially and adversely affect investor's rights. A copy of the Constitution of the Fund is available, free of charge, on request from Equity Trustees.

Compliance plan

Equity Trustees has prepared and lodged a compliance plan for the Fund with ASIC. The compliance plan describes the procedures used by Equity Trustees to comply with the Corporations Act and the Constitution of the Fund. Each year the compliance plan for the Fund is audited and the audit report is lodged with ASIC.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy (such as records of any discretions which are outside the scope of, or inconsistent with, the unit pricing policy) will be made available to investors free of charge on request.

Indirect Investors

You may be able to invest indirectly in the Fund via an IDPS by directing the IDPS Operator to acquire units on your behalf. If you do so, you will need to complete the relevant forms provided by the IDPS Operator and not the Application Form accompanying the PDS. This will mean that you are an Indirect Investor in the Fund and not an investor or member of the Fund. Indirect Investors do not acquire the rights of an investor as such rights are acquired by the IDPS Operator who may exercise, or decline to exercise, these rights on your behalf.

Indirect Investors do not receive reports or statements from us and the IDPS Operator's application and withdrawal conditions determine when you can direct the IDPS Operator to apply or redeem. Your rights as an Indirect Investor should be set out in the

IDPS Guide or other disclosure document issued by the IDPS Operator.

Indemnity

Equity Trustees, as the Responsible Entity of the Fund, is indemnified out of the Fund against all liabilities incurred by it in performing or exercising any of its powers or duties in relation to the Fund. To the extent permitted by the Corporations Act, this indemnity includes any liability incurred as a result of any act or omission of a delegate or agent appointed by the Responsible Entity. Subject to the law, Equity Trustees may retain or pay out from the assets of the Fund any sum necessary to affect such an indemnity.

Anti-Money Laundering and Counter Terrorism Financing ("AML/CTF")

Australia's AML/CTF laws require Equity Trustees to adopt and maintain a written AML/CTF Program. A fundamental part of the AML/CTF Program is that Equity Trustees must hold up-to-date information about investors (including beneficial owner information) in the Fund.

To meet this legal requirement, we need to collect certain identification information (including beneficial owner information) and documentation ("KYC Documents") from new investors. Existing investors may also be asked to provide KYC Documents as part of an ongoing customer due diligence/verification process to comply with AML/CTF laws. If applicants or investors do not provide the applicable KYC Documents when requested, Equity Trustees may be unable to process an application, or may be unable to provide products or services to existing investors until such time as the information is provided.

In order to comply with AML/CTF Laws, Equity Trustees may also disclose information including your personal information that it holds about the applicant, an investor, or any beneficial owner, to its related bodies corporate or service providers, or relevant regulators of AML/CTF Laws (whether inside or outside Australia). Equity Trustees may be prohibited by law from informing applicants or investors that such reporting has occurred.

Equity Trustees and the Investment Manager shall not be liable to applicants or investors for any loss you may suffer because of compliance with the AML/CTF laws.

Common Reporting Standard ("CRS")

The CRS is developed by the Organisation of Economic Co-operation and Development and requires certain financial institutions resident in a participating jurisdiction to document and identify reportable accounts and implement due diligence procedures. These financial institutions will also be required to report certain information on reportable accounts to their relevant local tax authorities.

Australia signed the CRS Multilateral Competent Authority Agreement and has enacted provisions within the domestic tax legislation to implement CRS in Australia. Australian financial institutions need to document and identify reportable accounts, implement due diligence procedures and report certain information with respect to reportable accounts to the ATO. The ATO may then exchange this information with foreign tax authorities in the relevant signatory countries.

In order to comply with the CRS obligations, we may request certain information from you. Unlike FATCA, there is no withholding tax that is applicable under CRS.

Your privacy

The Australian Privacy Principles contained in the Privacy Act 1988 (Cth) ("Privacy Act") regulate the way in which we collect, use, disclose, and otherwise handle your personal information. Equity Trustees is committed to respecting and protecting the privacy of your personal information, and our Privacy Policy details how we do this.

It is important to be aware that, in order to provide our products and services to you, Equity Trustees may need to collect personal information about you and any other individuals associated with the product or service offering. In addition to practical reasons, this is necessary to ensure compliance with our legal and regulatory obligations (including under the Corporations Act, the AML/CTF Act and taxation legislation). If you do not provide the information requested, we may not be able to process your application, administer, manage, invest, pay or transfer your investment(s).

You must therefore ensure that any personal information you provide to Equity Trustees is true and correct in every detail. If any of this personal information (including your contact details) changes, you must promptly advise us of the changes in writing. While we will generally collect your personal information from you, your broker or adviser or the Investment Manager and Administrator directly, we may also obtain or confirm information about you from publicly available sources in order to meet regulatory obligations.

In terms of how we deal with your personal information, Equity Trustees will use it for the purpose of providing you with our products and services and complying with our regulatory obligations. Equity Trustees may also disclose it to other members of our corporate group, or to third parties who we work with or engage for these same purposes. Such third parties may be situated in Australia or offshore, however we take reasonable steps to ensure that they will comply with the Privacy Act when collecting, using or handling your personal information.

The types of third parties that we may disclose your information to include, but are not limited to:

- stockbrokers, financial advisers or adviser dealer groups, their service providers and/or any joint holder of an investment;
- those providing services for administering or managing the Fund, including the Investment Manager, Custodian and Administrator, auditors, or those that provide mailing or printing services;
- our other service providers;
- regulatory bodies such as ASIC, ATO, APRA and AUSTRAC; and

- other third parties who you have consented to us disclosing your information to, or to whom we are required or permitted by law to disclose information to.

Equity Trustees or the Investment Manager may from time to time provide you with direct marketing and/or educational material about products and services they believe may be of interest to you. You have the right to "opt out" of such communications by contacting us using the contact details below.

In addition to the above information, Equity Trustees' Privacy Policy contains further information about how we handle your personal information, and how you can access information held about you, seek a correction to that information, or make a privacy-related complaint.

Full details of Equity Trustees' Privacy Policy are available at www.eqt.com.au. You can also request a copy by contacting Equity Trustees' Privacy Officer on +61 3 8623 5000 or by email to privacy@eqt.com.au.

Information on underlying investments

Information regarding the underlying investments of the Fund will be provided to an investor of the Fund on request, to the extent Equity Trustees is satisfied that such information is required to enable the investor to comply with its statutory reporting obligations. This information will be supplied within a reasonable timeframe having regard to these obligations.

Foreign Account Tax Compliance Act ("FATCA")

In April 2014, the Australian Government signed an intergovernmental agreement ("IGA") with the United States of America ("U.S."), which requires all Australian financial institutions to comply with the FATCA regime.

Under FATCA, Australian financial institutions are required to collect and review their information to identify account holders that are U.S. residents and U.S. controlling persons that invest indirectly through certain passive entities. The information of such account holders is reported to the ATO. The ATO may then pass that information onto the U.S. Internal Revenue Service.

In order to comply with the FATCA obligations, we may request certain information from you. Failure to comply with FATCA obligations may result in the Fund, to the extent relevant, being subject to a 30% withholding tax on payment of U.S. income or gross proceeds from the sale of certain U.S. investments. If the Fund suffers any amount of FATCA withholding and is unable to obtain a refund for the amounts withheld, we will not be required to compensate investors for any such withholding and the effect of the amounts withheld will be reflected in the returns of the Fund.
